

Kiera Coyne

AI and Business Intelligence Manager

 kieracoyne4@gmail.com  516-655-0703  [LinkedIn](#)  [Tableau Public](#)

PROFESSIONAL SUMMARY

Senior Business Intelligence & AI Leader with **7+ years of experience** leveraging analytics to drive strategic business decisions across digital products, finance, and enterprise operations. Expert in **Tableau, Power BI, SQL, Snowflake, Python, and enterprise analytics**, with a proven track record of transforming complex data into executive-ready insights, KPI frameworks, and scalable analytics solutions. Trusted advisor to executive leadership, partnering across **Product, Technology, Engineering, and Finance** to influence strategy, prioritize investments, and improve business performance through data-driven decision-making.

CORE COMPETENCIES

Business Intelligence Strategy | Digital Analytics | Product Analytics | Customer Journey Analytics | KPI Strategy | Executive Storytelling | SQL | Tableau | Power BI | Snowflake | Python | Data Visualization | Product Performance Measurement | Cross-Functional Leadership | Digital Strategy | AI-Enabled Analytics

HCL, STARSHEMA

AI and Business Intelligence Manager (September 2025 - Present)

Client:  Apple - US Sales Channel

- Lead and mentor a team of Business Intelligence analysts delivering analytics products and executive dashboards that support strategic decision-making across Apple's U.S. Sales and Finance organizations.
- **Delivered 10+ core dashboards with a roadmap to 50+**, supporting more than 1,000 business users.
- Spearhead integration of AI capabilities into Tableau, developing intelligent dashboards with predictive insights and automated analytics.
- Define enterprise **AI and Business Intelligence** strategy by aligning analytics initiatives with business priorities, establishing KPI frameworks, and delivering executive insights that guide strategic investment decisions.
- Partner with Data Engineering and business leaders to establish **source-of-truth data models, standardized KPI definitions, semantic-layer strategy, and reusable analytics assets** across finance and sales organizations.
- Partner with Product, Technology, Engineering, and business leaders to define success metrics, prioritize analytics initiatives, and deliver executive-ready recommendations that improve business outcomes.

VAIL RESORTS

Manager, Financial Data Analyst (March 2024-September 2025)

- **Owned enterprise BI strategy** for FP&A, leading a **company-wide analytics transformation** that standardized workflows for **200+ stakeholders**.
- Architected an enterprise Snowflake analytics platform by designing governed data models, standardized KPI frameworks, reusable reporting assets, and scalable business intelligence architecture supporting enterprise-wide reporting.
- Designed executive Tableau dashboards and self-service analytics solutions that identified performance trends, informed strategic planning, and accelerated executive decision-making across a **\$3B revenue portfolio**.
- **Automated financial reporting pipelines** with SQL and Python, **cutting manual prep by 40%** and **boosting reporting accuracy by 25%**.
- **Upskilled analysts** in BI design, forecasting, and scenario planning, raising team capability and adoption of advanced analytics.
- **Partnered with executive stakeholders** to define KPI frameworks, evaluate strategic initiatives, identify business risks and opportunities, and translate analytics into actionable recommendations.

HCL, STARSHEMA

Business Intelligence Manager (September 2022 - March 2024)

Client:  Apple - US Sales Channel

- Directed a **9-person BI team** supporting Apple's U.S. **finance and sales operations**, delivering **100+ analyses per year**.
- Built reusable Tableau analytics products supported by standardized semantic models, governed metrics, and enterprise KPI definitions used by over **500 Apple stakeholders**.
- Designed Apple's **Tableau design system**, showcased at **Tableau Conference 2023** and scaled across multiple business units.
- **Automated recurring reporting processes** with SQL, Python, and Dataiku, **reducing prep time by 75%** and saving **~400 analyst hours annually**.

- Created **prototype BI models and Tableau extensions** that enabled advanced **trend, scenario, and sales channel analysis**.
- Collaborated with senior leaders to define **analytics requirements** and deliver **scalable BI solutions** aligned with strategic goals.

GRANT THORNTON LLC.

Advisory Senior Associate - Digital Transformation and Management (August 2021 – September 2022)

Advisory Associate - Digital Transformation and Management (August 2019 - August 2021)

Client Agencies: Department of State, NASA, Department of Homeland Security, Veteran Affairs

- Designed **Power BI dashboards and predictive models** to monitor **\$20B+ in federal funding** across **70+ programs**, strengthening financial accountability.
- **Automated workforce analytics pipelines** with Python and Power BI, **cutting delivery times by 50%**.
- Built **performance tracking systems and KPI dashboards** adopted by **5+ federal divisions**, increasing visibility into workforce and program outcomes.
- Delivered insights and BI tools to **agency executives and White House-level leadership**, influencing policy-level funding decisions.
- Supported **federal digital transformation initiatives**, ensuring BI solutions aligned with compliance, transparency, and governance standards.

KEY ACHIEVEMENTS

- **Featured Design of Apple Tableau Conference 2023 (Dashboard Design Innovation)**.
- Spearheaded **Snowflake BI architecture** at **Vail Resorts** for enterprise-wide unified reporting.
- Built **forecasting models** for **multi-billion-dollar programs** used in **national reports**.
- Directed **BI modernization projects**, replacing manual reports and saving hundreds of hours annually.

PERSONAL PROJECT & CONTRIBUTIONS

- Developed interactive data visualizations showcased on [Tableau Public](#).
- Exploring advanced analytics, including **Tableau API integrations and AI-enhanced BI solutions**.
